WHAT IS TED?

TED Conferences LLC (Technology, Entertainment, and Design) is a media organization that posts talks online for free distribution under the slogan "ideas worth spreading". TED's early emphasis was on technology and design, consistent with its Silicon Valley origins. It has since broadened its perspective to include talks on many scientific, cultural, political and academic topics. Having its humble beginning in limited domains, it has spread with all its might on different global issues enlightening us in the process of what remains unobvious to us.

TED has remained as a prominent source of high quality information coming for free through the various agencies of Internet. It has further grown to develop TEDx.

TEDMED; an annual conference on health and medicine, TED Women, TED Youth and more. It has also launched other programs in the past decade such as TED Books, TED-ED Clubs; an education based initiative to get young people to share their ideas, TED Salon, TED Radio Hour etc. Today TED along with its child branches serves as the symposium for the best people of each domain and has made sure knowledge is no longer a matter of privilege and is easily accessible to all.

WHAT IS TEDX?

TEDx is a grassroots initiative, created in the spirit of TED's overall mission to research and discover "ideas worth spreading." TEDx brings the spirit of TED to local communities around the globe through TEDx events. These events are organized by passionate individuals who seek to uncover new ideas and to share the latest research in their local areas that spark conversations in their communities. TEDx events include live speakers and recorded TED Talks, and are organized independently under a free license granted by TED.

ABOUT TEDxVSSUT

The first edition of TEDX was launched in 2018 after a series of setbacks. On one hand we have the unrivalled concept of TED influencing thousands of people every day, we have people who do it for changing people's lives with nothing expected in return. Those who do it for passion and are skilled in the craft always do it better. TEDxVSSUT is a perfect paradigm how big events like TEDx can be modelled and organised in areas like Burla. The first edition of TEDx was launched under the theme of "SOLVING THE UNSOLVED". 15 speakers were invited from across all walks of life and a grand event was organized along with an introductory Gala Dinner. TEDxVSSUT is back again to organise its fourth edition here which promises to be only better and improve on the benchmark. Since then, the team has gained more experience and is committed to work through the past flaws & improve on it relentlessly.
